incubation
incubation period

Main Entry: **in·cu·ba·tion**

Pronunciation: *ɪn'kəbəshən*

Function: *noun*

Inflected Form(s): -s

Etymology: Latin *incubation-*, *incubatio*, from *incubatus* + *-ion-*, *-io -ion*

- 1 : the act or process of incubating (as eggs, bacteria, or milk) <during the *incubation* of the culture>
2 : the act or an instance of brooding over something in order to give it form and substance
<definitely named the four stages of creative thought as preparation, *incubation*, illumination, and verification -- R.S. Woodworth>
3 : the period between the infection of a plant or animal by a pathogen and the manifestation of the disease it causes
4 : a rite among the ancient Greeks and Romans of sleeping on a skin or on the ground in order to enter into communion with the chthonic gods through dreams
